REMARKS:

No indication of missile activity can be found on [] photography of the Rumburk and Frydlant areas. However, coverage is incomplete since only vertical photography is available, and its poor quality hampers interpretation.

The city of Olomouc is imaged on the far oblique. Beyond it to the northeast, at approximately 49°39'N, 17°28'E, is what appears to be a military training area. Though earth scars are evident, no missile activity is apparent.

The other three areas, in the vicinity of Krumlov, Karlovy Vary, and Liberec, are not covered by available photography.
